

NATIONAL WEATHER SERVICE

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

2026 NWS Gray Winter Spotter Training

Help your National Weather Service by becoming a Winter Weather Storm Spotter! Storm spotters report snowfall, ice accumulation, ice jam flooding, and coastal flood erosion during Northern New England's long, harsh winters. Spotter training will teach you how to accurately measure and report significant winter weather phenomena!

Where:	Skowhegan, Somerset EOC Building, 4 County Drive
When:	October 31st, 10:00AM
Registration:	rksmith88@gmail.com or message Rick Smith at 207-431-4776
Cost:	Free to all those interested in weather!

For other training in upcoming months, check out the National Weather Service online at weather.gov/gvx/skywarn. You can contact Donald.Dumont@noaa.gov for additional information on this training.
